- The AIDAdiva was constructed at the MEYER WERFT facility in Papenburg, Germany.

Anchor Publications Inc. has made every effort to ensure accuracy of content and cannot be held liable for inadvertent errors or omissions. The sole responsibility of the Publisher is to correct, in the subsequent edition, any errors that may have occurred in this edition of *Marine Equipment Directory*. Please report any such changes for the 2010 edition to Anchor Publications Inc. *Deadline: December 31, 2009.*

## ECO-profile

*Marine Equipment Directory* is printed on FSC-certified paper. The paper used for the text pages and covers come from a sustainable and responsible source as defined by *The Forest Stewardship Council*.

The inks used are non-toxic vegetable-base printing inks that are biodegradable. Finishing solutions for the covers, and adhesive substances used in the binding process are also biodegradable.
